DETAILED ACTION

1. The amendment of 4/11/06 has been entered, rejected claim 56 has been cancelled.

Allowable Subject Matter

2. Claims 1 and 59 and their dependents are allowable.
3. The following is a statement of reasons for the indication of allowable subject matter:

As per Claims 1 and 59

The prior art of record, specifically Rosenblat ('548) in view of Daughtrey ('226), Ahlstrom ('357), McCowan ('200), Shemesh ('939) and AirCharter do not disclose or fairly teach:

identifying a suitable aircraft by:

- 1) comparing the itinerary information with the charter aircraft information,
- 2) determining which of the charter aircraft are compatible with airports within a prescribed radius of the user's at least one departure location,
- 3) determining which of the charter aircraft are compatible with airports within a prescribed radius of the user's at least one destination location,
- 4) comparing the itinerary information with the charter aircraft information by
 - a) determining the status of each charter aircraft, wherein the status of each charter aircraft is either a positive or a negative status,
 - b) determining whether each charter aircraft has appropriate flight characteristics, and
 - c) determining whether each charter aircraft has a present location within the prescribed radius of the user's designated at least one departure location, and
- 5) eliminating charter aircraft with insufficient seating capacity;

determining a charter price for at least one of the identified suitable charter aircraft by:

- 1) obtaining a cost of operating each of the suitable charter aircraft from the charter aircraft information database,
- 2) calculating a flight factor for flying each of the suitable charter aircraft from the user's at least one departure location to the user's at least one destination location, wherein the flight factor is at least one of an approximate flight time between the user's at least one departure location and the user's at least one destination location and an approximate flight distance between the user's at least one departure location and the user's at least one destination location,

3) calculating a total charter price based on the operating cost and the calculated flight factor for each of the suitable charter aircraft.

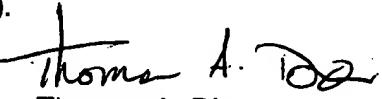

The claims that depend from the above allowable claims are allowable for the same reasons.
